Honorable Bob Martin
Commissioner
NJ Department of Environmental Protection
401 East State Street
Post Office Box 402
Trenton, New Jersey 08625

Dear Commissioner Martin:

Enclosed please find a petition signed by local residents who are concerned about the noxious odors emitted from the RER composting facility located off Clark Road in Wantage, Sussex County.

This issue was originally brought to our attention by the governing body of Wantage Township after they received numerous complaints about the offensive smells coming from the composting facility. Our office has also received complaints from individuals concerning about the foul smell and asking for our help. Additionally, there are questions about the facility encroaching onto properties beyond its original boundaries.

We understand that the Wantage Township governing body has met with DEP staff regarding this matter. Our office greatly appreciates your Department's continued review of the RER composting facility and asks for any assistance that might prove effective in eliminating or reducing the foul smelling odors as we consider this to be a quality of life issue.

Thank you for your kind attention.

Sincerely,

Steven V. Oroho
Senator

F. Parker Space
Assemblyman

SVO/PS/hc
Enclosure

cc: Debra Millikin, Wantage Township Administrator

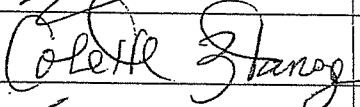

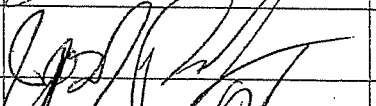

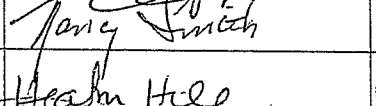

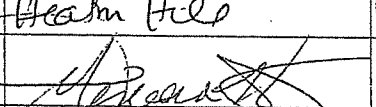

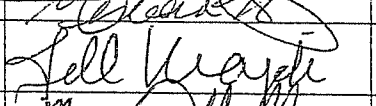

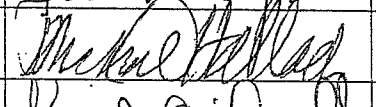

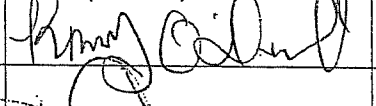

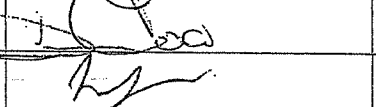

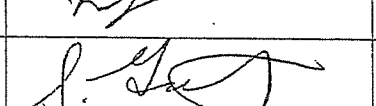

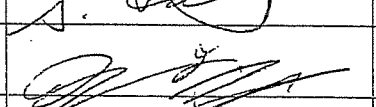

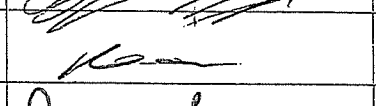

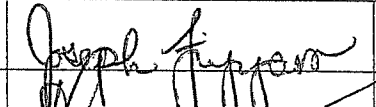

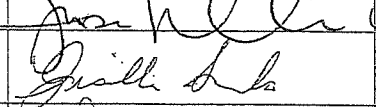

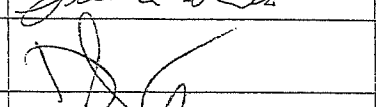

Stop The Odor Pollution Petition

We the undersigned petition the New Jersey Department of Environmental Protection to enforce your Permit No. CBG120001 for Facility ID No. 132692 located in Wantage Township, Sussex County.....The undersigned have objections to the continued obnoxious odors that have been emitting from the area for a number of years, and ask that the facility follow 132 conditions as outlined in you above referenced permit.
